

OXFORD AUDIENCE PLAYS

55 screens · 44 venues

WHICH ROOMS TO PITCH, AND WHAT THEY COST · REP TARGETING GUIDE

whole market \$3,045 à la carte → \$2,436 at 10+

Find the prospect's business below and you have the room list and the number in one line. Every price is the quote tool's own math — each venue at its 4-week rate, summed, less the **20% volume discount** where the mix carries 10+ screens. **These are starting points, not products:** add, drop or cross markets and the tool re-prices instantly. **Lead with a flat package** — the à la carte total is what the same rooms cost hand-picked.

BUY IT IN TWO MINUTES

mctvofms.com/rate-quote

Search the venue finder by type or town, tick the rooms, price it instantly, then **e-sign right on the page.**

How to use a number on this sheet. It is an à la carte reference total for those exact rooms — not a package and not a discount tier. Quote it when the prospect wants *these specific* venues. Otherwise lead with the flat package: it is usually more screens for less money, and it is the fastest yes. Where a mix here prices *under* the nearest package, that is the cheaper-rooms trade-off — see the "I priced my own screens cheaper" card on the objection sheet before you quote it. **The quote tool is authoritative;** per-venue rates are on the Oxford rate sheet.
